ESPRESSO COFFEE GROUP
BREWING UNIT VARIABLE CHAMBER
FRESH BREWER UNIT

Espresso coffee made in compliance with Italian tradition.

Ensures optimum pressing and brewing conditions doses (from 7 to 14 gr).

Allows high-quality filter coffee to be made from the finest coffee beans or ground coffee.

VACUUM COFFEE BEAN HOPPER

Thanks to this system, the coffee bean hopper is kept under vacuum and allows a better conservation of the flavors.

TOPPING AND SYRUP

Internal dispenser to enrich the drinks with chocolate granules, caramel and many other delectable products.

FRESH MILK FROTHING MODULE

Improving fresh milk management, one of the favourite consumers beverages.

DIFFERENT SIZE OF CUPS

Double cup dispenser with predefined diameters (70 and 80 cm) or double cup dispenser with adjustable diameter (from 57 to 80 cm).

LIDS AND MINI-SNACK

Systems that increase service options by providing mini-snacks and practical lids.

FULL HD TOUCH SCREEN

Latest generation touch technology for an interface that simplifies more complex menus.
